Education

University of California, Davis, Ph.D. in Computer Science — Sept 2024 - Present
- Advised by: Prof. Muhao Chen

Huazhong University of Science and Technology, M.S. in Computer Science — Sept 2021 – June 2024
- **Research**: Natural Language Processing, Conversational AI

Dalian University of Technology, B.Eng in Software Engineering — Sept 2017 – June 2021
- **GPA:** 3.89/4.00
- **Awards:** Mitsubishi Fellowship, Outstanding Scholarship, Meritorious Winner of 2019 ICM

Experience

Research Intern, NetEase – Hangzhou, China   June 2023 – Sept 2023

- Collected and standardised the data used to address the problem of dialogue hallucinations, and validated the validity through fine-tuning methods.
- Participated in the construction of Chinese persona dialogue model based on LLaMA and LLaMA2. The finetuned model was used for character dialogue fragments generation for the game Treacherous Waters.

Research Intern, Ant Group – Hangzhou, China   Sept 2022 – Dec 2022

- Implemented a RL-based conversational(interactive) recommendation system [code].
- Improved the performance of the interactive recommendation system for the real insurance business in Alipay.

Service

Reviewer: ACL, EMNLP, NAACL, since 2023.
